DCCEXplorer Crack + (Updated 2022)

C:\PROGRAM FILES\DCCEXplorer.zip ----- 2017-06-25 MS-DOS

----- Size: 2135988 bytes ----- DCCEXplorer is a sophisticated yet user-friendly application designed to provide a quick way to encrypt multiple records with custom passwords and protect them from prying eyes. It comes packed in a small archive with all the essential files and can be dropped to a USB flash drive and used on any PC. DCCEXplorer supports almost all file formats, such as EXE, JPG, PNG, DOC, TXT, DLL or DAT. You can either use the drag-and-drop method or the browser to add your documents to the list. When you want to encrypt them, the app prompts a message for you to set a unique key for several or all records in the list. Plus, you have the option to exclude specific extensions and use a particular compression level. To decrypt them, simply enter the password. On ending note The bottom line is that DCCEXplorer is a sophisticated and user-friendly program created to offer a simple and practical method to insert diverse records and batch encrypt them using personalized passwords to keep them away from prying eyes. How to Use DCCEXplorer There are several ways to use DCCEXplorer. The easiest way to use it is to drag and drop files from the file browser to the target list. And the final step is to open the DCCEXplorer archive and select the target files that you want to be encrypted. Next, the default key will be provided and you are free to use it. DCCEXplorer Features DCCEXplorer is a small yet useful application created to provide a quick and easy way to encrypt multiple documents. However, the program comes packed in a small archive with all the essential files, and it can be dropped to a USB flash drive and used on any PC. DCCEXplorer supports all the most popular formats, including EXE, DOC, JPG, TXT, DLL, DAT and other image formats like PNG. You can either use the drag-and-drop method or the browser to add your documents to the list. When you want to encrypt them, the app prompts a message for you to set a unique key for several or all records in the list. Furthermore, you can exclude specific extensions and use a particular compression level. To decrypt them, simply enter the

What's New in the DCCEXplorer?

DCCEXplorer is a comprehensive yet user-friendly application designed to provide a quick way to encrypt multiple records with custom passwords and protect them from prying eyes. It comes packed in a small archive with all the essential files and can be dropped to a USB flash drive and used on any PC. Download DCCEXplorer Comments Description: We store all our private details on different host pages because it's much faster and less time-consuming, but how safe are our files from being accessed without our consent? There are plenty of programs out there that offer a quicker and secure method to protect sensitive data and easily store it in your computer. Description: Batch encrypt applications, documents and images Description: The provided interface and accessible and plain divided into a tree explorer, a thumbnail viewer, along with a file list and a basic toolbar, which contains the most commonly used commands. When the app is run, a password is required in order to access its functions. If you're using it for the first time, you have to set a new password for your database, which is going to be asked every time. Description: Configure your database login information and populate it Description: When using the app, you'll be required to set a unique key for several or all records in the list. Plus, you have the option to exclude specific extensions and use a particular compression level. Description: On ending note User reviews Recent News Macphun DCCEXplorer (DCCEXplorer) 4.3.1 Macphun DCCEXplorer is a comprehensive yet user-friendly application designed to provide a quick way to encrypt multiple records with custom passwords and protect them from prying eyes. It comes packed in a small archive with all the essential files and can be dropped to a USB flash drive and used on any PC. DCCEXplorer is easy to use, yet it has many advanced features which you won't find on other free data protection applications. Reviews: DCCEXplorer (DCCEXplorer) How to decrypt DCCEXplorer encrypted files? Now that DCCEXplorer has been installed, you should have a folder with your documents. You are going to need a tool to decrypt them. Just download DCCEXplorer Explorer, which is available for free, and open it. Go to the List of archives, and choose the one with your documents inside. Find the file with your documents inside it. Right-click

on it and choose the option “Decrypt”. You will be asked to enter the password that was used to encrypt your file. You should then see your documents in the folder. If you cannot find a certain file inside DCCEXplorer, you can try a different search engine. Is DCCEXplorer dangerous? DCCEXplorer is
